

KINGA MARCHLEWSKA

"So many people are shut up tight inside themselves like boxes, yet they would open up, unfolding quite wonderfully, if only you were interested in them."
- Sylvia Plath

ABOUT ME

My name is Kinga Marchlewska. I am 23 years old. I was born and raised in a Polish city called Płock. Currently, I live, study, and work in the Netherlands, where I moved with my family 5 years ago. Since I was a child, I had a wide range of interests. I wanted to be and do many different things. Hence the diversity in my background. Nevertheless, all of my past experiences helped me to notice what I actually enjoy doing, what I would like to develop more, and what I am good at. Right now, I can say with confidence that I am an eager-to-learn, enthusiastic, empathetic, curious, and creative person who always wants to know more. My main hobbies are reading, traveling, drawing, painting, and photography. I also love spending time with my friends and family. My main goal for the future is to be able to create something that could have some practical use and hopefully help something/someone in a way. My dream is to sincerely enjoy my work and be able to travel for it or next to it.

PERSONAL DETAILS

DATE OF BIRTH:

07.09.2003

PLACE OF BIRTH:

Płock, Poland

E-MAIL ADDRESS:

kinga.marchlewska.a@gmail.com

ADDRESS:

Breda, the Netherlands

LANGUAGES

Polish – Native language
English – C1/C2 Advanced
Dutch – B1 Intermediate

EDUCATION

Breda University of Applied Sciences (HBO)

Sep. 2024 - present

HBO-Bachelor in Data Science & Artificial Intelligence at Breda University of Applied Sciences, Breda, the Netherlands

Currently, I am in my second year of the Data Science & Artificial Intelligence study at Breda University of Applied Sciences. During the first year we covered topics such as introduction to artificial intelligence, introduction to machine learning, deep learning, Python, and SQL. Additionally, we were able to work on many interesting projects connected to these topics. Last year we were focusing on natural language processing, robotics, and computer vision while also working on some new projects.

Summa College (MBO 4)

Sep. 2021 - Aug. 2024

Summa College (Summa International Business - English), Eindhoven, the Netherlands

I followed an International Business course in English. In my course at Summa College, I had subjects like Business Economics, Macro Economics, Sales, Marketing, Finance, Export, and Calculating. Additionally, I studied Dutch, Spanish, and English there. I graduated with distinction (average ~9), including top marks in export, marketing, and languages

High School

Sep. 2019 - Feb. 2021

Liceum Ogólnokształcące im. Marszałka Stanisława Małachowskiego, Płock, Poland

I followed a literature course in high school in Poland. In this course, I was learning about the Polish language and literature, the history of the world, and society. Additionally, I was learning Latin, French, German, and English.

Middle School

Sep. 2016 - Jun. 2019

Gimnazjum Nr 8 im. Aleksandra Macieszy, Płock, Poland

I followed a mathematics-informatics course. On this profile, I had extended Mathematics, Physics, Robotics, IT, and German.

WORK EXPERIENCE/INTERNSHIPS

Part-Time Job

August 2024 - present

*Global Learning & Content Development, **Vanderlande**, Veghel, the Netherlands*

After completing my internship and summer job in Vanderlande, I applied for a part-time position in the same company in the **Global Learning & Content Development** department as a **Technical Author - Office Assistant**. I was hired and started working in a new department immediately after the previous one. This job focuses on creating different kinds of manuals, instructions, technical documents for the machine operators and trainers who work with equipment produced by Vanderlande. For this I am mainly working with Adobe Acrobat editor.

ACHIEVEMENTS

- **Co-founded Sign-See, a real-time Dutch Sign Language learning app**, and am taking it from a year-2 project to an early-stage startup through BUas's Coach track; the team was invited to present it at a university industry day.
- **Interned at ASML**, one of the largest technology companies in the Netherlands, during my first year of MBO 4.
- Built **HistoPath AI**, a deep-learning classifier for cancer detection on histopathology scans.
- Ran a **full independent research project on batch effects in cancer-genomics machine learning** (TCGA-BRCA), with formal ethics approval, a FAIR data-management plan, and honestly-reported null results.
- Selected to represent my university in an **international robotics challenge** (BIP) at SRH Heidelberg, developing an autonomous robot car with a multinational team.
- **Founded and ran a mock company (Growth & Awareness) for my final business exams**, delivering the complete business, branding, and marketing plan.

- Business & enterprise: SAP, Workday, Adobe Acrobat, MS Office

HOBBIES

- playing piano
- traveling
- reading
- photography
- learning languages
- painting
- drawing

Summer Job

May 2024 - August 2024

*Business Unit, Sourcing & Supply Chain, **Vanderlande**, Veghel, the Netherlands*

I was offered a summer job in the **BU Supply Support Team** after completing my internship in the same department. Here again, I was mainly working with planning, scheduling, arranging and helping other employees within the department whenever they needed some information.

Internship

January 2024 - May 2024

*Business Unit, Sourcing & Supply Chain, **Vanderlande**, Veghel, the Netherlands*

I completed my internship in **BU Supply Support Team**. During my internship at Vanderlande I was mainly working with planning, scheduling, arranging and helping other employees within the department whenever they needed some information. Furthermore, I had the opportunity to work on marketing and communication project which involved recording a professional promotional video. My school assignments concerned topics from many different fields. Therefore, I was able to also help with exporting and importing, finance, sales, and marketing.

Internship Abroad

February 2023 - June 2023

*Marketing, Customer Service, **FiestasMix**, Barcelona, Spain*

During my internship abroad I was working with SEO marketing, customer service (calling, mailing), market research, export and import research, and logistics control. Furthermore, I was participating in team meetings and I could observe what business planning looks like in practice. Moreover, I was learning Spanish every day. I mostly learned how to effectively use SEO marketing, and how to do good market research in a relatively short time.

Summer Job

July 2022 - September 2022

*Human Resources, **ASML Holding N.V.**, Veldhoven, the Netherlands*

My summer job took place in the **Human Resources** department. I was assisting the People Services - Onboarding team in processing the administrative process for new hires within ASML. I mainly focused on creating and approving new hires' profiles in the system (registering new ASML employees in the system). To do this, I used, among others, Workday, SNOW, OpenText (Livelihood), and Okta.

Internship

May 2022 - July 2022

*Sourcing & Supply Chain, **ASML Holding N.V.**, Veldhoven, the Netherlands*

I completed my internship in **Sourcing & Supply Chain**, in the Operational Buying Team, where I worked as a Tactical Buyer. During my internship at ASML as a Tactical Buyer, I was mainly working with the SAP system where I was, among others, creating (repair) purchase orders, reworking orders, creating info records, subcontracting info records for different plants, creating, and changing and deleting 12NCs. Furthermore, I had the opportunity to take part in weekly team meetings, where we discussed the previous weeks.

Volunteering

September 2026 - present

*Team Lead, Integration Committee, **ESN Breda***

I volunteer as a **Team Lead of the Integration Committee** at ESN Breda, part of the Erasmus Student Network. I lead a 7-person team preparing and running events for 30-50 international students each.

Volunteering

March 2026 - September 2026

*Internal Operations Committee Volunteer, **ESN Breda***

I volunteered with the **Internal Operations Committee** at ESN Breda, part of the Erasmus Student Network, helping keep things running behind the scenes so international students can make the most of their time here.
